Dear Nate:

See my addition in **bold**. I do not know when this will move forward—I can get a date from Tom P. tomorrow. Signature package hasn't been prepared yet, so this won't be proposed next week. I'll be in tomorrow, out Thursday.

Sorry for not giving more of a heads up on this one. (b) (5) - Deliberative process privilege

I will not be as plugged in tomorrow so please contact Tony Nesky from ORIA if you have more questions (I added him to the chain). Allison has also offered to help see this through.

Thanks,
Nate

Hi Nate – Thanks for sending these. Can you add some information to the subpart W blurb? For the report, we need to include things like expected stakeholder reaction, press plans, and any federal/state coordination. (see attached guidance from this past summer) While you're out, is there someone in ORIA I can follow up with? Entries for the week of January 6 should've been submitted on December 23, so I need to get this to Geller ASAP. I may send him this write up pending additional information.

Subject: ORIA Items for Next WHW

Hi Kristien,

Here are a few items for the next WHW. I think that you already have a blurb for the ANPR on nuclear power operations, but I couldn't find it in emails so I just pulled a few lines from the comms materials and created a new one. If you already have something, please disregard (unless you like this version better ☺). I will be out of the office the rest of this week and most of next so I added the rest of the comms team here in case you need anything while I am out. I will probably be watching BB on and off, though.
